The material used in production of this standard was sampled in accordance with ARI 031. The above values relate only to the material used to produce this standard. The overall direction and coordination of the analytical measurements leading to certification were performed by J.R. Shingledecker at Alpha Resources. This certificate was revised on December 12, 2008 to correct the fixed carbon and organic sulfur values, (calculated), by K.E. Dyer.

Remedies for any claimed defect in this product will be limited to product replacement or refund of the purchase price. In no event shall Alpha Resources be liable for incidental or consequential damages. This is a Certified Reference Material (CRM). For good laboratory practice it is recommended that all standards be verified prior to use.
