SECTION VIII SPECIAL PROTECTION

Eye protection: Safety goggles, face shield

Skin protection: leather or rubber gloves

Respiratory protection: use of dust respirator recommended when exposure limits may be exceeded

Ventilation Local Exhaust (specify rate): local exhaust ventilation to collector or containment recommended to control dust below exposure limits

SECTION IX - SPECIAL PRECAUTIONS

Precautions to be taken in handling and storing and/or other precautions:

Good industrial hygiene practice requires that employee exposure be maintained to below the recommended TLV. This is preferable achieved through the provision of adequate ventilation where necessary. Where dust cannot be controlled in this way, personal respiratory protection should be employed.
