

AR1034, AR1034-100

CALCIUM CARBONATE RM

LOT# 18427461

Carbon = 12.00%

Assay: 99.6% (dried basis)

Notes:

This Organic Analytical Standard (OAS) consists of high purity calcium carbonate for use as a routine working micro analytical reference material. Refer to your instrument manufacturer's recommendations and/or test method for analytical sample size and uncertainty capabilities. Metrological traceability is to the SI derived unit of mass fraction expressed as percent.

This bottle contains 50g (AR1034) or 100g (AR1034-100) to be used per your test method. This is a reference material (RM) and is verified by its purity and empirical stoichiometry in accordance with recommendations of the Analytical Chemistry Section of the International Union of Pure and Applied Chemistry. Keep sealed and store under normal laboratory conditions. The above values represent the stoichiometric values of pure calcium carbonate.

Remedies for any claimed defect in this product will be limited to product replacement or refund of the purchase price. In no event shall Alpha Resources be liable for incidental or consequential damages. Produced in accordance to ISO Guide 31 and ISO17034 (non-scope).

EXPIRATION DATE

THIS RM IS VALID FOR TWO YEARS FROM THE DATE OF OPENING
